Building on our Qatari legacy, Ramco Group is expanding across the MENA region and internationally, delivering excellence in residential, commercial, and governmental projects.

All reflecting our commitment
to refine. the finest.

a letter from the president

Ramco Group was founded on the belief that opportunity must be met with readiness, vision, and determination. In a rapidly evolving market like Qatar, one that continues to embrace international standards and increased global competition, we have built our identity by rising to every challenge and expanding our capabilities across borders.

Today's business landscape is shaped by new economic realities, greater competition, and shifting market dynamics. These pressures place higher demands on both clients and service providers, requiring greater efficiency, stronger performance, and unwavering quality. In response, Ramco Group has strengthened its foundation by developing robust Management, Technical, and Project Controls teams dedicated to delivering every project with excellence, on time, within budget, and to world-class standards.

As we look ahead, we recognize that the challenges of the future are more complex, more global, and more transformative than those of the past. This inspires our continued commitment to innovation, strategic thinking, and expansion into regional and international markets. Our vision extends beyond Qatar as we position Ramco Group to become a global player capable of delivering integrated solutions and creating sustainable value worldwide.

With every step we take, we remain guided by our core values and driven by our responsibility to our clients, partners, and communities. Our journey continues, strong, ambitious, and focused on building a better future at home and across the globe.

Eng. Anwar Al Qawasmi
Presiden/ CEO, Ramco Group

Innovation, integrity, and vision guide us toward a better future, locally and globally.

quality assurance

At Ramco Group, quality is more than a standard; it is an integral part of our culture and operations. We recognize that delivering projects that consistently meet or exceed client expectations is the cornerstone of our reputation and long-term success. Our Quality Assurance (QA) framework is designed to ensure that every project, regardless of size, sector, or complexity, is executed with precision, efficiency, and excellence.

Structured Quality System

Our Quality Assurance system provides clear processes, roles, and guidelines for every project. Key components include:

- Project organization structures with defined responsibilities
- Standardized operational processes and procedures
- Authority and responsibility frameworks for accountability
- Key Performance Indicators to monitor progress and performance

This system ensures consistent quality, risk management, and seamless integration across all projects.

Audit and Continuous Improvement

Regular internal and external audits validate processes and KPIs, while corrective and preventive measures are reviewed and enhanced continuously. Benchmarking among teams encourages knowledge sharing, drives improvement initiatives, and strengthens risk awareness.

Commitment to Innovation and Excellence

We embrace the latest construction technologies and innovative practices, delivering reliable, cost-effective, and high-quality solutions. Our QA framework is applied across all sectors, including building construction, interiors, specialized contracting, industrial projects, maintenance, landscaping, and trading.

Quality assurance at Ramco Group is a strategic commitment. By combining rigorous processes, continuous improvement, and innovation, we deliver projects that create lasting value and maintain our reputation as a trusted local and global leader.

quality control

Ramco Group operates a strict Quality Control (QC) system across all projects to ensure that work consistently meets stakeholder specifications and requirements. Our QC framework includes clearly defined inspection and test plans, procedures, and standards that guide every stage of project execution.

Quality Control at Ramco Group is driven by teamwork and collaboration. Estimators, project managers, safety directors, and field staff work together to deliver projects successfully, maintaining high standards of quality, safety, and efficiency.

Each project is treated individually, with QC systems tailored to its unique requirements. All Quality Control procedures are fully compliant with Ramco Group's Integrated Management System policy, ensuring alignment with organizational standards and best practices.

delivering value in every project

Ramco Group specializes in providing comprehensive general contracting services across a wide range of sectors, including Commercial and Corporate Headquarters, Biotechnology and Healthcare Facilities, Government Ministries and Institutes, Retail, Hospitality, Industrial, Real Estate Development, and Interiors.

Our extensive expertise in design, engineering, and execution across contracting, construction, landscaping, industrial works, maintenance, and trading enables us to integrate essential client requirements into every build-to-suit project. By combining technical proficiency with a client-focused approach, Ramco Group consistently delivers projects that meet or exceed expectations, no matter how complex or challenging.

At the heart of every project, Ramco Group builds value by:

- Ensuring quality, timely, and cost-effective delivery
- Incorporating innovative and sustainable solutions aligned with client goals
- Enhancing operational efficiency and long-term functionality
- Promoting environmental responsibility as a proud member of the Qatar Green Building Council

Our commitment is to achieve total stakeholder satisfaction by continuously improving performance, creating lasting impact, and adding tangible value to every project we undertake.

the group

Ramco Group is a leading Qatari enterprise with strong financial foundations, stable management, and a diversified business portfolio. With a growing presence in regional and international markets, Ramco Group delivers world-class projects and services that combine expertise, innovation, and quality.

Our operations span multiple sectors:

- Overseas & Global Operations: Delivering integrated solutions and high-quality projects across regional and international markets.
- Contracting: Engineering and construction services for commercial, industrial, healthcare, hospitality, government, and real estate projects.
- Industrial: Specialized industrial construction, plant works, and infrastructure solutions.
- Real Estate: Development and management of residential, commercial, and mixed-use properties with a focus on sustainability and high value.
- Trading: Supply of construction materials, equipment, and specialized products to support projects.

Through our network of subsidiaries, we provide end-to-end solutions, ensuring excellence, innovation, and value creation for clients and stakeholders locally, regionally, and globally.

overseas operations

With the vision of expanding its impact on an international scale, Ramco Group has extended its expertise, professionalism, and diverse portfolio of services across the MENA region. Leveraging its proven capabilities and steadfast commitment to excellence, the Group has consistently delivered high-quality solutions that create lasting value for all stakeholders.

Beginning its regional expansion in Libya and Jordan, and subsequently expanding into Mauritania, Oman, and the Kingdom of Saudi Arabia (KSA), Ramco Group has remained dedicated to developing and delivering superior projects while exceeding the expectations of both current and prospective stakeholders.

Through strategic collaboration and the effective utilization of its extensive experience and resources, Ramco Group has successfully delivered a wide range of residential, commercial, and governmental developments, including but not limited to:

- Mixed-Use Development Projects
- Commercial Avenues and Boulevards
- Convention Centers
- Business Districts
- Residential Communities
- Resorts and Hotels

contracting division

Ramco Group's Contracting Division delivers comprehensive engineering and construction services across commercial, industrial, healthcare, hospitality, government, and real estate sectors. Supported by strong technical expertise and proven project management capabilities, the division executes projects to the highest standards of quality, safety, and efficiency.

Operating through its specialized entities including Ramco Contracting, Ramco Infrastructure, Ramco MEP, Samko International, and Projex, the division offers end to end solutions covering civil works, infrastructure development, mechanical electrical and plumbing services, and integrated construction management. With a commitment to innovation, reliability, and timely delivery, Ramco Group's Contracting Division continues to contribute to landmark developments across Qatar and the region.a

MILAHA
MILAHA

trading division

Ramco Group's Trading Division specializes in the supply of construction materials, equipment, and specialized products that support a wide range of projects across Qatar and beyond. Backed by strong financial foundations and experienced management, the division plays a key role in delivering reliable and high-quality solutions to the construction and infrastructure sectors.

Through its diversified trading entities including Allcrane, Ramco Trading Division, Alsahoo, Electrocity, Morden, and Acrow, Ramco Group offers an extensive portfolio of products and services. These include construction equipment, access and formwork systems, electrical and mechanical products, specialized building materials, and engineered solutions sourced from trusted global manufacturers.

With a growing regional and international presence, Ramco Group's Trading Division is committed to excellence, innovation, and operational efficiency. By combining technical expertise with dependable supply chains, the division consistently supports world class projects while meeting the highest standards of quality, safety, and performance.

industrial division

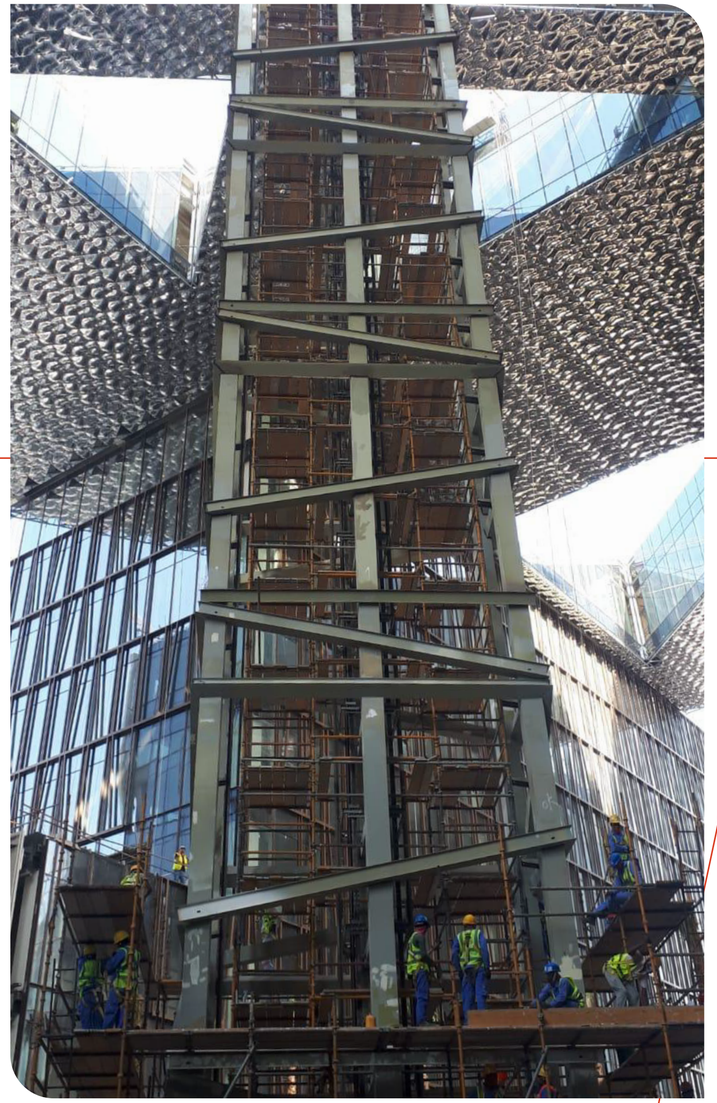

Ramco Group's Industrial Division specializes in industrial construction, plant works, and infrastructure solutions, delivering high-performance facilities tailored to complex operational requirements. The division focuses on precision, durability, and efficiency while adhering to the highest standards of quality and safety.

Through its industrial entities including National Factory, Refined Industries, Metal Plus, and Skywall, Ramco Group provides integrated solutions covering manufacturing, metal fabrication, industrial finishing, and advanced building systems. Leveraging technical expertise, modern facilities, and innovative processes, the Industrial Division supports a wide range of industrial and infrastructure projects across Qatar and the region.

real estate division

Ramco Group's Real Estate Division focuses on the development and management of residential, commercial, industrial, and mixed use properties, delivering high value assets with a strong emphasis on sustainability, functionality, and long term performance.

The division's activities include Property Development across industrial, commercial, residential, and miscellaneous asset classes, addressing diverse market needs and investment opportunities. Complementing development services, Ramco Group provides comprehensive Property Management and Facility Management through Qua, ensuring efficient operations, asset preservation, and enhanced value throughout the property lifecycle.

subsidiaries overview

Ramco Group operates through a diverse portfolio of subsidiaries that collectively support its mission of delivering world class projects and services. Built on strong financial foundations and guided by stable, experienced management, the Group has established a solid presence across regional and international markets.

Through its Overseas and Global Operations, Ramco Group delivers integrated solutions and high quality projects beyond local borders. Its Contracting subsidiaries provide comprehensive engineering and construction services across commercial, industrial, healthcare, hospitality, government, and real estate sectors. The Industrial subsidiaries specialize in industrial construction, plant works, and infrastructure solutions, supported by advanced manufacturing and fabrication capabilities.

Ramco Group's Real Estate subsidiaries focus on the development and management of residential, commercial, and mixed use properties, emphasizing sustainability, long term value, and operational efficiency. Complementing these activities, the Trading subsidiaries supply construction materials, equipment, and specialized products, ensuring reliable support for projects across all business divisions.

Together, Ramco Group's subsidiaries operate as an integrated ecosystem, combining expertise, innovation, and quality to meet evolving market demands and deliver lasting value.

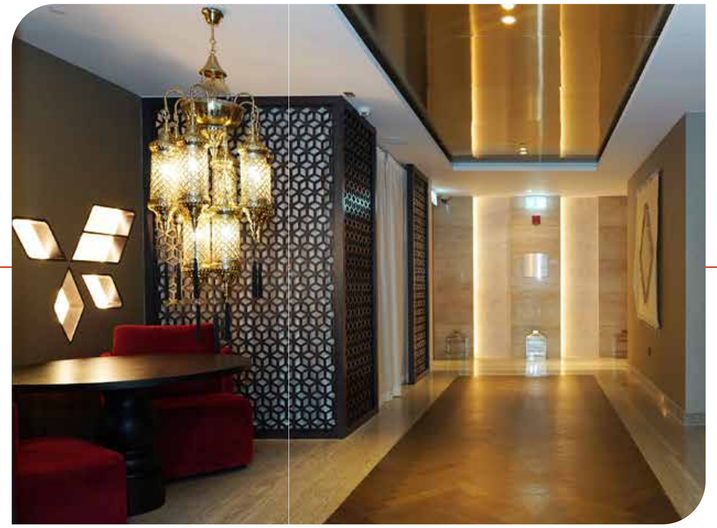

NATIONAL
FURNITURE and DECORATION FACTORY W.L.L.
المصنع الوطني للأثاث والديكور ذ.م.م

NATIONAL is a full service woodworks and interiors specialist offering tailored solutions ranging from custom furniture, wooden and fire rated doors, flooring, office furnishings, and outdoor furniture to complete turnkey project execution. With in house capabilities covering design, engineering, manufacturing, and installation, NATIONAL delivers integrated solutions for hotels, restaurants, healthcare facilities, luxury villas, and multi purpose developments.

Each project is approached with a strong focus on creativity, functionality, and precision. Careful consideration is given to design intent, ergonomics, material selection, finishes, color schemes, durability, and operational efficiency, ensuring that every outcome is distinctive and purpose built. NATIONAL is committed to providing responsive, flexible service while consistently delivering premium quality, custom crafted woodwork.

Based in the New Industrial Area of Doha, NATIONAL operates a state of the art manufacturing facility equipped with advanced wood processing and fabrication technology. Spanning more than 10,000 square meters, the factory is among the most comprehensive of its kind in the GCC and MENA regions. Its strategic location near major land, sea, and air transport routes enables efficient logistics and timely delivery of customized wood products.

MetalPlus
AIR SYSTEMS W.L.L

METALPLUS, a subsidiary of Ramco Group's Industrial Division, has been a leading manufacturer of galvanized steel air ducts in Qatar since its establishment. Renowned for its rectangular and round air duct production, the facility operates with advanced CNC machinery and boasts an impressive annual capacity of 150,000 m².

Specializing in subcontracting for the ventilation industry, METALPLUS offers end to end solutions from the manufacturing of air ducts and supply of ventilation components to installation and the development of complete indoor climate systems.

The mission of METALPLUS is to deliver exceptional stakeholder satisfaction through high quality products and outstanding project management during every phase of installation. With its expertise in both manufacturing and on site execution, METALPLUS has established itself as a reliable and efficient partner in the HVAC and ventilation sector.

SKY W ALL
ALUMINIUM & GLASS
سكاي وول للألمنيوم والزجاج ذ.م.م.

SKYWALL is a leading innovator in the aluminum and glass industry, providing both supply and contracting services across Qatar since its inception. The company specializes in delivering high-quality, customized solutions for governmental, healthcare, and commercial projects, focusing on exterior and interior building surfaces.

Its expertise includes curtain walls, door and window cladding, stainless steel works, and fire-rated facades, offering both aesthetic appeal and functional performance.

SKYWALL has successfully executed a range of prestigious projects, including QFC II, QNB Headquarters, Al-Shaqab Equestrian Club, Al Wakra Hospital, QREIC Building, and Retaj Al-Rayyan Tower, earning a reputation for reliability, precision, and excellence in the construction sector.

ramco رامكو

Ramco Trading & Contracting Co. W.L.L. شركة رامكو للتجارة والمقاولات ذ.م.م.

CONTRACTING

Ramco Group's Contracting Sector has earned a strong reputation for delivering complex construction projects by exceeding stakeholder expectations. We apply industry-standard engineering practices, advanced construction technologies, and robust project management systems across all project phases—from design and procurement to construction, commissioning, and handover.

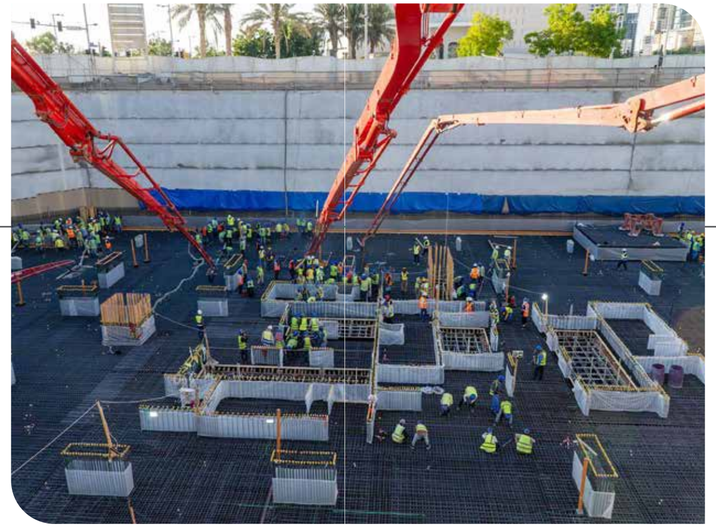

Our extensive experience enables effective risk management and confident execution of demanding projects. We offer expertise in bid and contract management, design coordination, logistics and inventory control, construction execution, and commissioning and maintenance.

The Contracting Sector operates through specialized subsidiaries, including RAMCO Contracting, RAMCO Infrastructure, RAMCO MEP, SAMKO, Projex, and Electro City.

ramco رامكو

Ramco Trading & Contracting Co. W.L.L. شركة رامكو للتجارة والمقاولات ذ.م.م.

INFRASTRUCTURE

Ramco Infrastructure delivers end-to-end civil engineering services, from conceptual design to project completion. By integrating engineering, procurement, material management, and construction, we ensure safe, cost-effective, and efficient project delivery.

Our teams use advanced software tools for planning, scheduling, resource allocation, progress tracking, and cost control, ensuring transparency and efficiency throughout the project lifecycle.

Ramco Infrastructure has a strong track record in turnkey civil engineering projects, including roads and highways, industrial plants, water structures, deep foundations, drainage and irrigation networks, and overall infrastructure development. We are committed to delivering high-quality solutions that support the growth of Qatar and the region.

ramco رامكو

Ramco Trading & Contracting Co. W.L.L. شركة رامكو للتجارة والمقاولات ذ.م.م.

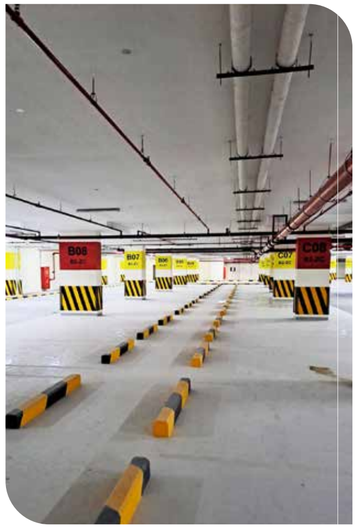

MEP

Ramco MEP, established in 1995, is a Grade-A contracting company specializing in mechanical, electrical, and plumbing works. With extensive experience in Qatar and North Africa, Ramco MEP has successfully executed complex projects across residential, commercial, and specialized buildings, earning a reputation for quality, reliability, and excellence.

The company provides turnkey electromechanical solutions, covering design, procurement, installation, and commissioning. Key services include:

- Complete MEP turnkey solutions
- Electrical and low current systems
- Plumbing and drainage works
- Fire alarm and firefighting systems
- Air conditioning and ventilation systems
- General maintenance services

All projects are executed under strict Health, Safety, and Environmental (HS&E) standards and robust Quality Assurance procedures, fully compliant with international standards and local regulations. Ramco MEP remains committed to delivering innovative, efficient, and high-quality MEP solutions for every project.

SAMKO International Co. W.L.L., established in 2004 in Doha, is a leading engineering and contracting company specializing in mechanical, electrical, and plumbing (MEP) works for construction projects across Qatar and the region.

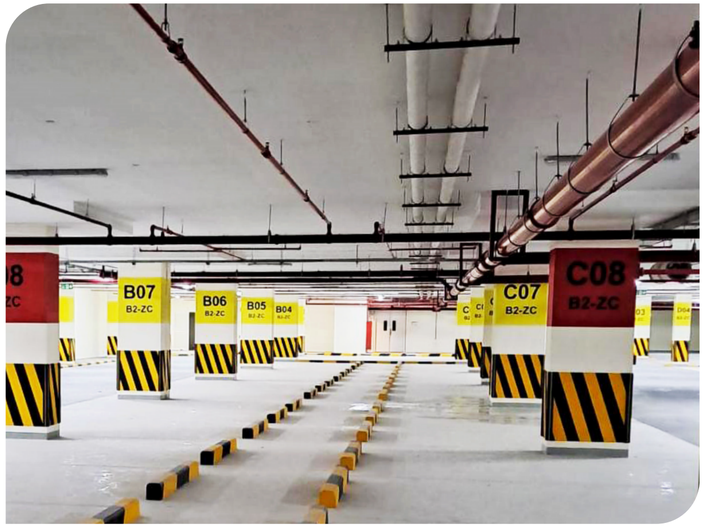

Since its inception, SAMKO International has grown to become one of Qatar's major MEP contractors, successfully delivering a wide range of high-profile projects in governmental, healthcare, residential, and private sectors. Its portfolio spans local and international projects, including The Hilton Hotel Qatar, InterContinental Hotel The City Qatar, Milaha Logistics City Qatar, British American Tobacco Plant Turkey, PEPSI Factory Russia, Floresta Gardens Qatar, CDG Tower Romania, Europe House Business Centre Romania, Zorlu Holding Tower Qatar, Beverly Hills Tower Qatar, Jumeirah Park and Residence UAE, Al Seal Tower Qatar, Tarabya Presidential Palace Qatar, Al Asmakh Mall (Centerpoint) Qatar, and the Avant-garde Al Bayt Stadium Qatar.

The company's team of highly skilled engineers, planners, and technical, administrative, and financial professionals ensures seamless project execution, meticulous follow-up, and timely handover. SAMKO International continues to demonstrate exceptional capability in managing complex MEP projects, delivering reliable and high-quality solutions across Qatar and the wider region.

P R O J E X

Since its inception, Projex Company W.L.L has become a leading provider of high-quality furniture systems, offering end-to-end solutions in project management, design, supply, and installation. We specialize in customized furniture and fit-out solutions tailored to each project's functional and aesthetic requirements.

Our experienced engineers, designers, and project teams work closely with clients and partner with internationally renowned manufacturers to deliver durable products that meet local and global quality standards.

Projex provides a wide range of solutions, including office, educational, healthcare, laboratory, library, and contract furniture, as well as partitions, flooring, and complete installation services. Our portfolio includes prestigious projects such as the Waldorf Astoria Hotel, Dream Hotel, Qatar University faculties, QPD VVIP facilities, and leading educational institutions, reflecting our commitment to quality and excellence.

ramco رامكو

Ramco Trading & Contracting Co. W.L.L. شركة رامكو للتجارة والمقاولات ذ.م.م.

TRADING DIVISION

Ramco Group's Trading Sector was established to strengthen stakeholder relationships and expand market presence through the supply and representation of high-quality products, tools, and machinery.

Our trained sales and service teams ensure reliable technical support and high levels of customer satisfaction. The Trading Sector operates through specialized companies such as ACROW, ALSAHOO, and ALLCRANE, and serves as an authorized agent and distributor for leading international brands including Spit Fixing Systems, Bosch Power Tools, Cut Diamond, and Petrolam.

Through strong partnerships and expertise, Ramco Group's Trading Sector delivers dependable solutions that meet evolving stakeholder needs, including:

- Expoxy flooring
- Fire stop

ACROW Formwork Technology

Acrow prides itself on delivering comprehensive support throughout every stage of a project. Our team of experienced project engineers takes full responsibility for each order, ensuring seamless execution from supply to installation and complete stakeholder satisfaction.

Leveraging advanced CAD technology and state-of-the-art manufacturing facilities, Acrow provides first-class professional services tailored to project requirements. Our formwork systems consistently deliver high-quality, reliable solutions that meet the needs of a diverse client base, ranging from SMEs to major multinational corporations.

Acrow also maintains professional installation teams, with expert engineers readily available to respond to inquiries and assist with specialized designs. The company's business philosophy is centered on serving the end user, helping companies and organizations maximize efficiency, productivity, and project outcomes. Each stakeholder's requirements are carefully analyzed, allowing Acrow to offer practical, proven solutions rather than simply supplying products.

This approach ensures that every project benefits from tailored, effective formwork solutions that prioritize performance, safety, and overall value.

alsahoo

Founded in the mid-1950s by Sahoo Ali Al Sahoo, Al Sahoo Group is a leading Middle Eastern trade enterprise with a strong regional presence. In the early 2000s, it partnered with Ramco Group to establish an exclusive branch in Qatar, supporting the country's rapid growth. Backed by modern showrooms, advanced warehousing, and a diverse inventory, Al Sahoo reliably delivers high-quality solutions for projects ranging from private villas to large-scale commercial and residential developments.

ALLCRANE

For years, ALLCRANE has been a leading provider of advanced lifting equipment, diverse fleets, and premium services, establishing itself as one of the fastest-growing companies in the crane industry across the GCC and MENA regions.

In addition, ALLCRANE distributes European passenger and material hoists, as well as mast climbing platforms, from SAFI of Italy, a global leader in rack and pinion lifting systems and mast climbing platforms.

In partnership with Ramco Group, ALLCRANE specializes in meeting all vertical lifting requirements for the modern construction industry, combining world-class products with expert services. Through its commitment to innovation, quality, and reliability, ALLCRANE continues to set industry standards in lifting equipment solutions.

ELECTRO CITY
TRADING & MAINTENANCE

With franchise dealerships for international brands such as GIBSON and CHIGO, Electro City Trading & Maintenance offers a wide range of products, including wall-mounted split units, window air conditioners, and light commercial A/C systems. The company is also actively engaged in distributing home and kitchen appliances.

Equipped with a team of skilled professionals, including senior and junior technicians, foremen, and maintenance engineers, Electro City ensures seamless service through modern communication systems and a well-organized operational structure. All field teams are fully supported with heavy-duty tools, materials, vehicles, and safety and hygiene equipment, enabling the company to deliver customized, high-quality solutions tailored to each client's needs.

موردن للأدوات الانشائية الحديثة
